Hi Rena,

Sorry for the late response I added Wilshire Center to your spread sheet. Please see the attachment. I hope this helps.

Thank you,

Michael Russell

Good Morning -

In preparation for tomorrow's meeting with the City to advocate that BIDs should be exempt from Waste Hauling Ordinance #182986, LA Sanitation is requesting additional information be **provided by the close of business today**. Attached you will find the report that was compiled last week and below you will find the information now being requested. Please response as soon as possible.

Thank you.

---

- What are the names of the waste haulers that currently service the respective BIDs?
- What is the level of service currently provided by the waste hauler

servicing the respective BIDs?

- o Number of bins provided (these are bins provided by the hauler that are used to consolidate the trash collected by BID staff)?
- o Size of bins used to consolidate trash collected by BID staff (3 cubic yard, 4 cubic yard, roll-offs, etc)?
- o Number of days the hauler services these bins?
- o Monthly rate currently paid to service these bins?
- o Are there additional monthly fees associated with servicing these bins?
- o Are there additional "as needed" costs associated with servicing these bins?
- o If bins are provided by the hauler are they located behind a locked gate or similar secured location?
- Please provide a copy of your current monthly bill that also includes detailed level of service
- Please provide a copy of the Proposed Service Level Agreement and any additional Waste Assessment documentation provided by the recycLA Service Provider's field representative
- Do the tons and bags quantity provided in the BID Waste Hauling spreadsheet represent the amount of material collected in a calendar year or month?
- Does the number of trash receptacles provided in BID Waste Hauling spreadsheet represent the number of receptacles serviced by BID staff and what are their sizes?
- Do the BIDs listed on the BID Waste Hauling spreadsheet self-haul, contract with a hauler or combination of both?
